

Baltic InteGrid Integrated Baltic Offshore Wind Electricity Grid Development Baltic InteGrid – Final Conference Thilo Krupp Berlin, 27.02.2109

Baltic InteGrid

#### Baltic Sea Declaration

WindEurope and the national wind energy associations sign the Baltic Sea Declaration

#### Letter of Support for the Baltic Sea Declaration

The INTERREG project Baltic InteGrid - represented by lead partner Institut for Klimaschutz, Energie und Mobilität (IKEM) - hereby expresses its interest in the goals of the Baltic Sea Declaration initiated by the Baltic Sea Offshore Forum (BaSOF).

The Battic InteGrid project consortium acknowledges the goals defined in the Battic Sea Declaration as relevant and important for the further development of officience wind energy and cross-border infrastructures in the Battic Sea region. The project consortium believes that the tasks defined in the Annex I of the Battic Sea Declaration are realistic step towards the cost-efficient development of a low-carbon and well-integrated energy market in the Battic Sea region.

The Battic InteGrid project consortium will follow the implementation of the task defined in the Battic Sea Declaration and will, to the extent possible, provide input and/or feedback with the knowledge developed in the Battic InteGrid project.

#### Baltic InteGrid – Letter of support

# **Baltic Offshore Grid Forum**

We will keep the discussions going after the Baltic InteGrid project...

Please join the future events of the

# Baltic Offshore Grid Forum

and consider becoming a member (free of charge).
